Junior Flutter Developer

Description

SyncSaS Technologies is looking for a passionate **Junior Flutter Developer** to join our mobile app development team. This role is ideal for recent graduates or final-semester students looking to start their career in mobile development. You'll work on real client projects, collaborate with senior developers, and get hands-on experience building scalable Flutter apps.

Responsibilities

- Develop and maintain mobile applications using Flutter.
- Collaborate with the backend and UI/UX teams for seamless integration.
- Write clean, modular, and well-documented code.
- Participate in code reviews and testing.
- Assist in troubleshooting and bug fixing.
- Learn and adapt to new tools and technologies under mentorship.
